This version (9.6) is to be followed by all users

The CJSM is supplied to the user in accordance with the following Terms & Conditions. Users understand that continued use of the Service will be taken as their acceptance of these Terms & Conditions and that they are fully aware of their responsibilities in relation to the use of the Service as set out below.

1. I will ensure that I comply with the UK Data Protection Act 1998, relevant privacy regulations and all professional codes of conduct under which we are bound. Furthermore, information transmitted through CJSM is treated as either :-
 - i. Within the 'OFFICIAL'¹ tier of the Government Security Classifications (GSC), where the sensitivity attached to said information is such that transmission using the Internet (without additional assured protection) is not appropriate and/or
 - ii. Information at RESTRICTED² and below for information marked with the GPMS.

I acknowledge that any breach of these provisions may result in access to CJSM being suspended or terminated.

2. In addition to the above, I am aware of the need to comply with any handling instructions related to the information communicated via CJSM, particularly where this relates to the onward transmission or storage of said data. Furthermore, I will ensure that any data that is communicated via CJSM will be accompanied by handling instructions where appropriate
3. I will control access by others to CJSM data so that only authorised individuals may view such data. I will seek to prevent inadvertent disclosure of sensitive or protectively marked information by avoiding being overlooked when working, also by taking care when printing information received via the CJSM (e.g. by collecting printouts immediately they are printed, checking that there is no interleaving of printouts, etc.);
4. I agree to be responsible for any use of the CJSM using my unique user credentials (user ID and password, access token or other mechanism as provided) and e-mail address. As such, I understand that:
 - I must protect my CJSM credentials (username, password etc) for access to the CJSM service. I understand that I may be held liable for any compromise or abuse of the credentials where I have not protected them accordingly.

¹ The majority of information that is created or processed by the public sector is classed as 'OFFICIAL'. This includes routine business operations and services, some of which could have damaging consequences if lost, stolen or published in the media, but are not subject to a heightened threat profile.

² 'RESTRICTED' information, for the purpose of this agreement, is defined as personal and sensitive information (that may or may not bear the Government Protective marking RESTRICTED), the unauthorised disclosure of which would :- cause substantial distress to individuals; prejudice the investigation or facilitate the commission of crime; breach proper undertakings to maintain the confidence of information provided by third parties or undermine the proper management of the public sector and its operations.
